

PRODUCT DATA SHEET

ETALIC SBR

PRODUCT DESCRIPTION

Etakic SBR is an SBR latex that is meant for bonding, repairing, and under-tile waterproofing. This multi-purpose product is suitable for use in the bathroom, kitchen, small terrace, and other wet areas. The product forms a matrix with cement and works as a bonding agent. The milky-white etalic sbr can be used for repair work on concrete, bonding of new concrete to old concrete, masonry stonework, plastering, pinhole treatment on concrete surfaces & passivator coat for bars.

- **USAGE GUIDELINES & COVERAGE.**
- SINGLE PACK, WHITE EMULSION OF LIQUID POLYMER MODIFIER & BONDING AGENT FOR CEMENTITIOUS MIX. PROVIDES OUTSTANDING WATER RESISTANCE, EXCELLENT ADHESIVE, INCREASE FLEXIBILITY, IMPROVE MECHANICAL PROPERTIES & ABRASION RESISTANT. REDUCES WATER PERMEABILITY, IMPROVES WORKABILITY & FINAL STRENGTH. A MULTIPURPOSE ADDITIVE FOR CEMENT MIX AND MORTAR.
- COVERAGE 6 TO 8 m²/1LTR. PACKAGING 1/5/10/20/200 LTR.

Packaging Units- 1 / 5 / 10 / 20 / 200L

Packaging Type- Liquid

Colours- Milky White

- **ADVANTAGES.**

- EXCELLENT ADESIVE TO REINFORCEMENT AND CONCRETE INCREASE FLEXURAL STRENGTH & TENSILE STRENGTH ECONOMICAL TO USE.
- It Is A Multi-Purpose Product Used For Bonding, Repairing, And Waterproofing.
- The Price Of ETALIC SBR Is Economical.
- ETALIC SBR Is Formulated To Give A Crack-Free Surface Due To Its High Flexural Strength.
- It Improves Hardness, And Compression Strength And Prevents Dust Accumulation On The Substrate .
- It Has A Non-Shrinkage And Water-Resistant Formulation.
- It Has Strong Bonding Properties Which Are Suitable For Repairs And Renovation.
- It Is Erosion And Corrosion-Resistant.
